

## Learn About The Right Liver Transplant Cost in India

Liver transplantation is a surgical procedure or a type of operation in which replace a diseased liver with a healthy liver from another person known as a donor. A liver transplant is needed when the liver fails due to long term disease. This is a treatment option for end-stage liver disease and acute liver failure. A whole liver may be transplanted, or just part of one. Learn about the right [liver transplant cost in India](#).
